#### *TANEY COUNTY REPUBLICAN* BY W. H. PRICE.

### **Taney County**

TANEY is the fourth county from the west line of the state, in the extreme southern tier, and so bordering on Arkansas and enjoying to its fullness the wonderful climate of the "Sunny Side" of the Ozarks, where the temperature rarely touches zero in winter and the nights in summer are always cool enough to make sleep a delight.

The county contains 600 search with

sleep a delight.

The county contains 600 square miles, 442,000 acres, of which about 67,000 acres are under improvement. The soil varies from the rich alluvial bottoms to the strong innestone soils of the ridges, producing successfully wheat, on which the county was awarded the silver medal at the Louisians European vacation, corn second to none.

bottoms to the strong himestone soils of the ridge, producing successfully wheat, on which the county was awarded the silver medal at the Louisiana Porchase exposition, corn second to none, (a stalk grown this season on display in this office measuring 17 feet in length.) potatoes, cotton, melons, tame grasses, betries, fruits, vegetables, in fact everything except tropical products, Pears and peaches do especially well.

The surface is rugged and picturesque, covered with forests and traversed by streams of sparkling, clearness, among them the beautiful Whiteriver, famed for its scenery and its tinny tribes, including the gamey black bases and lack salmon, while the wooded expanses abound in smail game of various kinds, including fox, raccoon, opossom, squirred, quali and turkey, affording abundant recreation with rod and gun.

The population of the county by the last census was 10,127, only two of whom were colored and all but 49 American born. The county tax is but 60 cents on the \$100, and there is practically no county debt. Wood for fuel is plentiful and cheapselling in Forsyth for \$1 a wagon-load with side-boards. Church and school facilities are fair and increasing, many of the schools manifesting such a spirit of up-to-date-ness as to provide libraries for the use of pupils. Improved farms are valued at \$10 to \$30 an agre, while unimproved lands can be had at \$1.26 to \$5. There are still about 5000 acres of government lands, subject to homestead or cash early. The county is finely watered, the White river alone winding in and out for about a hundred miles within its borders.

There is considerable timber of commercial value, including hickory, whiteoak, walnut, pine and codar, and vast mineral wealth, as indicated by the little prospecting that has been done. Our minerals include marble, hydraulic lime, manganese, copper, lead and zinc in their multitudinous forms, silver and gold, recent prospecting showing the presence of both in paying quantities, all of which will afford wealth-making opportunities

he heard an unearthly screech, saw an iron monster rushing down upon him as if to devour, and with difficulty was made to understand that this demonish monster was to bear him to the great state game warden at a salary of city. After once getting on the train, \$2400 a year by the governor, and however, his confidence soon returned, and he began to enjoy himself. No need to tell of his experiences at Springfield, but suffice it to say that in due time he arrived safely at Paint Hoolis.

And now to return to the old folks at home. A month had passed since the young man had left the parental rooftree for greener pastures. But here comes father, and with him he brings a letter from the youth. Of course the old folks are anxious to hear how their son is getting along, and so they at once proceed to read the letter. As it is from one with whom our story has to deal, I hope we will be pardoned for looking over their shoulder and seeing what the young man has to say. Here is the letter:

Last Hope Vanished. hen leading physicians said that W. M. Smithart, of Pekin, Ia., had incurable consumption, his last hope vanished; but Dr. King's New Discovery for consumption, coughs and colds, kept him out of his grave. He says: "This great specific completely cured me, and saved my life. Since then, I have used it for over 10 years, and consider it a marvelous throat and lung cure." Strictly scientific cure forcoughs, sore throats or colds; sure preventive of pneumonia. Guaranteed, 50c and \$1.00 bottles at City drug store. Trial bottle free.

#### Best Cough Medicine for Children.

When you buy a cough medicine for small children you want one in which you can place implicit confidence. You want one that not only relieves but cures. You want one that is unquestionably harmless. You want one that is pleasant to take. Chamberlain's Cough Remedy meets all of these conditions. There is nothing so good for the coughs and colds incident to childhood. It is also a certain preventive and cure for croup, and there is no danger whatever from whooping cough when it is given. It has been used in many epidemics of that disease with perfect success. ### Cheated Death.

Kidney trouble often ends fatally, but by choosing the right medicine, E. H. Wolfe, of Bear Grove, Iowa, cheated death. He says; "Two years ago I had kidney trouble, which caused me great pain, suffering and anxiety, but I took Electric Bitters, which effected a complete cure. I have also found them of great benefit in general debility and nerve trouble, and keep them constantly on hand, since, as I find they have no equal." A. H. Parrish druggist, guarantees them at 50c.
